

Classmates,

One last plug for the reunion planning survey. Just over 100 respondents, which is about 10% of the class.

I also wanted to point out and clarify a few things.

1. THE PURPOSE. Most of those survey questions were specifically targeted toward complaints that were heard about the reunion. We were trying to determine if it was a small number of complaints or more widespread. We are trying to gather lessons learned to improve on the 25. There are many ways we can execute the 25 and are looking for assistance.

2. STAY PROFESSIONAL. The planning committee is a group of volunteers that were kind enough to spend their time organizing. No need to be rude with your comments.

3. 2-WIRE. This is Navy slang for a landing that is good but less than perfect.

4. A "WATCH PARTY"- We would book our reunion when we know we have a game but may not know if it is home or away. If it is away, then we would do a watch party at the N Star room at the stadium. They can host up to 1150 people in a very nice facility with TVs mounted around the room. Benefits: Not cold. Not Hot. Not as crowded in Annapolis.

Everyone can see the game. We can plan ahead. See pics here. <http://www.navysports.com/facilities/rentals-n-room.html>

5. As was noted in the survey by some, we can't solely rely on fb to push out info so I am cross posting this with a classmail e-mail as well.

BEAT ARMY!
