

Classmates,

Thomas and Committee have asked me to pass along a message regarding the planned 1 July price increase.

Based on the great numbers seen in early registration, the Committee has decided to hold off on the 1 July registration price increase.

The original tiered pricing was setup to encourage early registration and it was successful. They are confident that we will have the numbers to pay all of the fixed price costs (registration table manning, security, satellite tvs, facility fees, photographer, etc...). It's a constant excel spreadsheet battle trying to find the sweet spot between having an amazing weekend, keeping the price reasonable, and being able to pay the bills when it's over.

Additionally, they would like to leave it at the current price to continue encouraging attendance. They plan on increasing for late registration on **1 Aug**.

Thanks to the Committee for remaining dedicated and spending a lot of time planning this event. It's going to be a lot of fun and looking forward to catching up with everyone.

Nagel Sullivan
